## Packaging & Delivery:

Grizzly Granite Random and Split Edge Facing is packaged in wire baskets on pallets with a total weight of approx. 3500 pounds per pallet. Grizzly Granite facing has a mix of approximately 15% corner material within the random mix. Grizzly Granite is ordered by the pound or by the pallet.

## Characteristics:

Grizzly Granite Random and Split Edge facing is locally quarried and produced in the Squamish Basin. It is a beautiful granite facing that mirrors the natural stone outcroppings that exist on the south coast of British Columbia.

(see above picture)

## Description & Color:

Grizzly Granite Random Facing is dark blueish grey granite with a mix of split and weathered faces.
